However, if the Chinese Government insisted on carrying out their scheme, they the Tsung-li Yamen that they memorialized that the schome should not be carried out. You may

take this story for what it is worth." The Daily News says :- "It will be seen from the letter of a correspondent in Tientsin, writing on the 10th instant, that the Empress was then said to have ordered Li Hung-chang to stop the negotiations in the matter of the American-Chinese Bank. We do not attach any importance to the rumours which he mentions of his having been done on account of opposition to the scheme on the part of some of the Foreign Ministers, although some of them are always ready, to oppose everything which they do not want for themselves or their nationals. - But the advice of our Correspondent were confirmed by the receipt yesterday afternoon of a telegram from Tientsin, which says that Li Hung-chang had informed the Empress that he has broken off all negotiations with the promoters or those interested in the Bank. We may now take it for granted that this is an end of the scheme.

The Tientsin correspondent of the Courier writes :- "I am sorry to state that the negociations between H.E. Li Hung chang and the American Syndicate have suddenly come to a sad termination. The Tsung-li Yamen has given instructions to H.E. Li to telegraph to America to say that the scheme could not be sanctioned by the Chinese Imperial Government. Strong influences have been brought to bear on the subject by the Foreign Ministers in Peking; and the Chinese officials in order not to get into complications, and having no mind or decision, have given way. The Americans are also to blame; they should have come out with a clear understanding, during their agent's stay here, and while negociations were being carried on; they should have concluded matters by nailing the Chinese Government down on the spot. As it now is, Brother Jonathan and the Vicercy here will be laughed at all over the world, for after all the newspaper comments, all the auxious apprehension of the British merchant, the bombast and brag of our American consins, the air castles with their splendour and grandeur have come to naught. Unfortunately I am not in possession of the partionlars of the agreement and proposals, and do not know to what extent the Chinese side is liable to carry out the scheme, but it would be a good idea if they were compelled to do so."
